Rely on rapid, high quality
colour proofing and printing

W2200

With a W2200 in your office, you can look forward to prints of unrivalled quality. An extra wide print head and advanced 6 colour printing process provides superior colour definition at deadline-beating speeds. So you can produce prints as large as A3+ in size – ideal for professional quality proofs when you need them. Give your business a fresh outlook with the versatile, cost effective W2200.

Colours as fresh on paper as in real life

Meet deadlines with ease

Accelerate your print output, thanks to the development of an extra wide, one-inch print head - combined with bi-directional print technology that provides continuous printing at every pass. 7,680 tiny nozzles distribute ink quickly and evenly, printing at 6 pages per minute on A3 plain paper, 1.3 ppm on A3 glossy paper and 0.8 ppm on A3+ proofing paper.* Thus decreasing print time while delivering superior quality.

6 pages
per minute

* full colour printing, fast mode

Cut costs and boost your productivity

With the W2200, you can increase output while reducing costs. High capacity, single ink tanks for each colour can be changed separately to prevent wastage. Canon's ink level detection system constantly monitors ink levels. Plus an optional cassette

Ideal for
high-volume
projects

can be added to the standard 250-sheet plain media supply. So you can easily avoid costly print interruptions due to lack of ink or paper - making the W2200 the ideal choice for all your high-volume colour print projects.

Exceptional Colour Accuracy

The 6-colour printing process used in the W2200 ensures that colours are printed more accurately – providing enhanced colour precision and greater tonal depth.

Enhanced
colour
precision

A multinozzle print head enables exact ink delivery of microscopic droplets that are consistent in shape, size and density. Resulting in photo-quality printouts at an ultra high 2,400 x 1,200 dpi resolution.

Dependable colour accuracy

High resolution 2400 x 1200 dpi

Ultra high speed printing

Easy connection to PC/Mac network

High capacity, single ink tanks

Accepts a wide range of media

The 6-colour printing process leads to enhanced colour precision and greater tonal depth.

Canon's W2200 prints on A3+ paper so you can proof at actual size - not at percentages

Versatile and compact

Print on A3+ paper for proofing purposes right down to a small B5 size. The printer also accepts a wide range of media and paper thicknesses - making it suitable for extensive graphic applications whether in professional print or office environments. Its compact, desktop design - complete with front-loading operation - makes it ideal for use even in limited workspaces.

Compact desktop design

Whatever you need to produce to meet your clients' demands, the W2000 will rise to the challenge. High quality concepts, logos, packaging proofs and promotions - you can get them all in an instant with the versatile W2200.

Your photographs need to be seen in all their glory. That's precisely what the W2200 delivers - glorious colour reproduction and accurate results, in an instant.

Connect with ease

Share all the advantages of the W2200 and increase productivity further. The printer can be easily connected to your existing office network, whether PC or Mac, via its standard Ethernet interface. It also supports Canon's NetSpot® Suite management and utility software - facilitating operation, management and overall network control.

With the capability to print on A3+ paper and the flexibility to accept a wide variety of media, the W2200 is the perfect solution for production proofing.

You can rely on the compact W2200 to show your designs in the best possible light. With exceptional colour output using 2,400 x 1,200 dpi resolution, the quality of your designs will always shine through.

When you're producing this month's magazine and deadlines are looming, you need a proofing device that's quick, versatile and reliable. You've got it all in one with the W2200.

Specifications **W2200**

Print method	Bubble Jet on demand	Media size	B5 – A3+, (13 "x 22 "oversize – optional)
Print speed		Interfaces	USB 1.1, IEEE1284, IEEE1394, Ethernet
Plain paper	B/W text A4: Draft: 20ppm, Std:17ppm Colour A4: Draft: 9ppm, Std: 4ppm Colour A3: Draft: 6ppm, Std: 2ppm	Protocols	NetBIOS/NetBEUI, TCP/IP, IPX/SPX, EtherTalk
Glossy paper	Colour A4: Draft: 2ppm, Std: 1.5ppm, High: 0.8ppm Colour A3: Draft: 1.3ppm, Std: 1ppm, High: 0.5ppm	Driver	Windows® 95/98/Me/NT4.0/2000/XP Mac OS 8.6/9/X
Proof paper	A3+: Draft: 0.8ppm, Std: 0.5ppm, High: 0.25ppm	LCD Language	Danish, Dutch, Finnish, French, Greek, Italian, Norwegian, Spanish, Swedish, English, Japanese
Resolution	2,400 x 1,200, 1,200 x 1,200 dpi	Noise	Average 47dB or less
Nozzles per chip	1,280 per colour	Power Supply	100-240V 50/60Hz
Droplet size	4 pl per colour	Power Consumption	Printing 50W or less, Stand-by: 15W or less
Colours	Black, Photo Cyan, Photo Magenta, Cyan, Magenta, Yellow	Operating Environment	5-35 °C, 10-90% humidity
Ink Type	Dye-based ink	Dimensions Weight (NET)	588mm (W) x 626mm (D) x 208mm (H), 15kg
Ink capacity	Individual 130 ml. tanks for each colour	Electrical safety and Electromagnetic interface regulations	
Media feeding	Cassette or manual feed	Environment	
Media types	Water resistant paper, Matt coated paper	Special Features	CE mark Energy Star, Blue Angel, Environment label Ink level detection system
Media capacity	Std. cassette (13 "x 15 ") up to 250 sheets Opt. 1 cassette (13 "x 19 ") up to 250 sheets Opt. 2 cassette (13 "x 22 ") Proof paper 50 sheets Other N/A
